

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

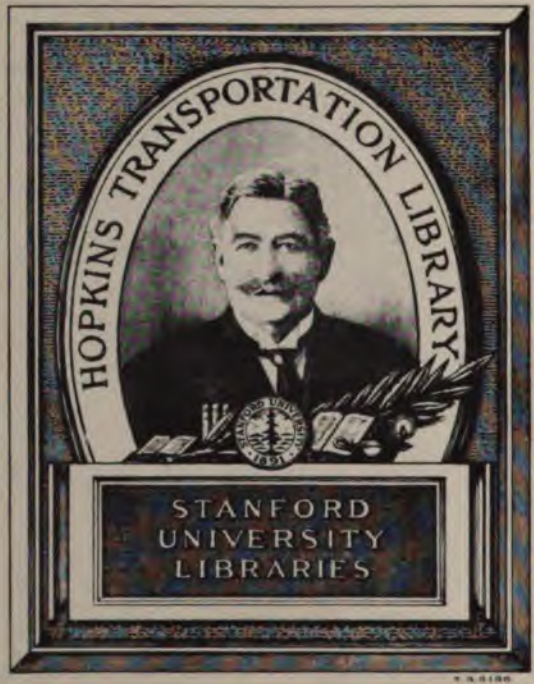

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LLOYD'S REGISTER

OF

BRITISH AND FOREIGN SHIPPING.

THE operations of the Societies of the two Register Books of Shipping heretofore annually printed for the use of Merchants, Ship-Owners, and Underwriters, having ceased, a new Society, denominated "*Lloyd's Register of British and Foreign Shipping*," has been established, for the purpose of obtaining a faithful and accurate classification of the Mercantile Marine of the United Kingdom, and of the Foreign Vessels trading thereto, for whose government the following Rules and By-Laws have been adopted.

That a Book containing a Register of such Classification be annually printed, and that all persons subscribing the sum of Three Guineas annually, (or such other sum as may be fixed by the Committee,) shall be Members of the Society, and entitled *(for their own use)* to a Copy of the Register Book.

That the price at which the Register Book be issued to Public Establishments, not being Marine Insurance Companies, be Ten Guineas.

That the Register Books shall be periodically posted throughout the year.

That for the convenience of Members not resident in London, a monthly Supplement, containing the additions and corrections to the Register Book, be printed in such convenient form, as will admit of its transmission by Post, that those parties may be furnished with the latest and most correct information; but for which an additional charge of One Guinea per annum will be made.

Six of the Members, namely, Two of each of the consti
Committee, shall go out annually by rotation, but be eligibl

The vacancies so arising shall be filled up by the elec
)wners and one Merchant by the Committee of the Ge
Society; and two Underwriters and one Merchant by t
naneging the affairs of Lloyd's.

The Committee shall appoint from their own body, annual
)eputy Chairman.

The Secretary, Clerks, and Servants of the Society, a
)r London and the Outports, shall be appointed by a
irection of the Committee.

The Committee shall meet for the despatch of busines
r on such other day as they may appoint, at eleven o'clo
re Members of the Committee shall be a quorum.

Special Meetings of the Committee may be convened
hairman, the Deputy Chairman, or any three Members.

All Elections and Appointments whatever shall be made by

The Committee are empowered to make such By-laws for
ent and proceedings as they may deem requisite, not being
e original Rules and Regulations under which the Society i
) new Rule or By-law shall be introduced, nor any Rule
thout special notice being given for that purpose at the Me
ttee next preceding the one at which

No Surveyor will be permitted, without the special sanction of the Committee, to receive any fee, gratuity, or reward whatsoever to his own use and benefit, for any service performed by him in his capacity of Surveyor to this Society, on pain of immediate dismission.

The Surveyors to the Society will be directed to attend on special surveys of ships under damage or repairs for restoration, when required by Merchants, Ship-Owners, and Underwriters; the charge for which will be regulated according to the nature and extent of the service performed.

FUNDS.

The Funds will be under the authority and control of the Committee, and a statement of the Receipts and Expenditure will be annually printed for the information of the Subscribers.

The following Fees will be charged to the owners of ships surveyed prior to their being classed and registered in the book.

For Special Surveys.

For Special Surveys, and where the Surveyors to the Society are required by the Owners of Ships to superintend repairs for Restoration, a charge will be made according to the nature and extent of the service performed.

All certificates of classification will be signed by one of the Chairmen and countersigned by the Secretary; the charge for which to be Ten Shillings for each Certificate.

SECOND CLASS SHIPS.

This class will comprise all ships which shall be found, on survey, unfit for carrying dry cargoes, but perfectly safe for the conveyance of cargoes not in their nature liable to sea damage, *to all parts of the world*; these will be designated by the letter E.

THIRD CLASS SHIPS,

Will comprise such ships as are good in constitution, and which shall be found on survey fit for the conveyance, *on short voyages* (not out of Europe), of cargoes in their nature not liable to sea damage; these will be designated by the letter I.

SHIPS' ANCHORS, CABLES, AND STORES.

The efficient state and condition of Ships' "Anchors, Cables, and Stores," will continue to be designated by the figure 1; and where the same are found insufficient in quantity or defective in quality, by the figure 2.

General Remarks.

All Reports of Survey shall be made in writing by the Surveyors to this Society, and submitted to the consideration of the Committee, or of the Sub-committee of Classification; but the character assigned by the latter shall be subject to confirmation by the General Committee.

In assigning character to the existing tonnage, and especially in restoration to the First Description of the First Class, of Ships that have been built without a view to such a privilege, the greatest caution will be exercised, but with a rigid attention to render ample justice to the Ship-owner.

No member of the Committee shall be permitted to vote in the decision of the classification of any ship of which he is an owner, or directly or indirectly interested.

SECOND DESCRIPTION OF FIRST CLASS SHIPS.

This Class comprises Ships which having passed the prescribed age,—but not having undergone the repairs that would entitle them to be continued in or restored to the First Description, or which shall have been restored, and the period assigned for such restoration having expired,—are still in a condition for the safe conveyance of dry and perishable cargoes; these will be designated by the diphthong Æ.

General Remarks.

For the purpose of ascertaining the competency of any ship for this description, a careful survey will be required to be made annually, or on the return from every foreign voyage, by one of the Surveyors to this Society.

The bottom of every ship of this description will be required to be caulked at least once in every Five Years; or if wood sheathed and felted, once in every Seven Years; but if any ship be stripped within those periods, the bottom to be caulked if necessary.

The Surveyors in their Reports to the Committee, on which the continuance of ships on this letter is to be founded, are required to state distinctly and separately the actual condition of the decks, beads, topsides (particularly in the way of the deck fastenings), water-ways, hatchway comings, beams, breasthooks, upper and lower deck fastenings, timber, plank, and treenails.

Where the Surveyors to this Society consider repairs to be requisite, they are respectfully to intimate the same, in writing, to the owner, agent, or master; and if such repairs be not entered upon within a reasonable time, a corresponding report will be made to the Committee.

Parties considering the requisitions of the Surveyors to this Society to be unnecessary or unreasonable, may appeal to the Committee, who will direct a special survey and report for their guidance; but should the requisition of the Surveyors be confirmed by the Committee, then the expense of such survey shall be paid by the party appealing.

In cases where it shall satisfactorily appear to the Surveyors to this Society that *Doubling*, of sufficient thickness and properly wrought and fastened, may be allowed as a substitute for the shifting of plank, either in the wales or bottom, the Surveyor is to make a special report thereof, together with his reasons, to the Committee, who will determine thereon.

SECOND CLASS SHIPS.

Will comprise all ships which shall be found on survey unfit for carrying *dry* cargoes, but perfectly safe and fit for the conveyance, *to all parts of the world*, of cargoes not in their nature subject to sea damage; and they will be designated by the lette[illegible]

Subject to occasion[illegible]vill continue in this class so long as their condition shall, i[illegible] Committee, entitle them thereto.

[illegible]S SHIPS.

Will comprise ships that are good in constitution, and which shall be found on survey fit for the conveyance, on *short voyages* (not out of Europe), of cargoes in their nature not subject to sea damage; and they will be designated by the letter I.

RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF THE FIRST CLASS.

If at any time before the expiration of one-half of the number of years beyond the period for which ships are to remain in the First Description of the First Class, an owner be desirous to have his ship continued in or restored to that description, such restoration (on his consenting to the special survey hereafter described, and performing the repairs therein found requisite) will be granted for a further period not exceeding two-thirds of the time originally assigned for her remaining in the First Description of the First Class, the same to be calculated from the date of such repairs.

Requisites for Restoration.

All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck water-ways, and plank shears and spirketting, and the strake next the water-ways on the lower deck in the midships, to be also taken out; the sheathing to be entirely stripped off the bottom; a strake in the upper course of the bottom between the wales and the light-water mark fore and aft, and a plank in the ceiling at the floor heads, to be taken out, the limbers to be clear, and the hooks forward to be exposed; and in that state the ship to be submitted to a special survey and examination, at which the attention of the Surveyors to this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knight-heads, kelson, floors, foothooks, ceiling, and breast-hooks, the rudder in all its parts and hangings; and if, after such examination, the owner should consent to take out all planks, timbers, beams, knees, water-ways, fastenings, and other parts that may be found defective, and objected to, and replace them with materials of the same species, or of equal quality, as those of which the ship was originally constructed, such ships to be entitled to restoration to the First Description of the First Class for a further period, proportionate to their real condition and the extent of the repairs performed, and provided that they be at all times thereafter kept in a state of efficient repair.

Additional Rule.

But if, *at any age*, the whole of the outside plank of a vessel should be taken off as low as the second foothook-heads, and the remainder of the

planking, either outside or inside, together with all the decks, be removed, *so as to expose the Timbers of the Frame entirely to view*, and in that state the ship be submitted to a special survey and examination by the Surveyors to this Society, and if, after such examination, all Timbers, Beams, Knees, Kelsons, Transoms, Breasthooks, remaining Plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the ship was originally constructed, and all the Treenails driven [illegible] ch ships may be restored to the first description of the Firs [illegible] period as may be deemed expedient by the Committee, no[illegible] ase the term of six years, as provided by the Seventh gener[illegible] the construction of which second-hand Timber has been

FOR SHIPS WHICH COMPRISE THE EXISTING TONNAGE.

All ships comprising the existing tonnage, are to undergo a very careful survey by the Surveyors to this Society, PRIOR TO REGISTRATION, and will be classed in the Register Book agreeably to the descriptions hereinbefore laid down for the building of new ships, unless on such survey there be found sufficient cause to assign them a less period.

On the proposed survey, especial attention is required to the following points, namely, to an examination of the state of the upper-deck fastenings, water-ways, spirketting, plank shears, topsides, and upper-deck, with its appendages; also the lower-deck fastenings, wales, and counter, and the plank and treenails outside to the water's edge; the state of the rudder, windlass, and capstan (if the latter be used for purchasing the anchors).

And if on examination of any ship she shall be found to be so defective as to render her unfit to continue on the First Description of the First Class for the remainder of the term of years assigned to her in accordance with these Rules and Regulations, a notice of the intention to make such a reduction at the expiration of thirty days, shall be given in writing, by the Surveyors to this Society, to the Master, Owner, or Agent, intimating, that if the alteration be objected to, the Committee will direct a special survey, on the said Master, Owner, or Agent agreeing to pay the expenses attending the same, *should it be found that the proposed reduction was justifiable.*

SHIPS' ANCHORS, CABLES, AND STORES.

All vessels are required to have their masts, spars, and standing rigging in good order, and the principal sails in sufficient number and good condition; and every ship is to be supplied with a good hempen stream cable or hawser of sufficient size and length, and with at least one good warp; and all vessels are required to be provided with anchors of proper weight, and cables of approved quality, in accordance with the undermentioned scale:—

All vessels under 200 tons to have at least two bower anchors, and all vessels above that tonnage to have at least three bower anchors.

Cables.

	Tons.		Tons.		Fathoms.	
All vessels	under	100	to have at least		150	if chain.
—	100 ..... to		150	.....	160	do.

—	400 ..... to		600	.....	220	do.

But in all cases where hempen cables are used, then one-sixth more in length will be required.

Boats.

All vessels under 150 tons to be provided with one good boat; and every vessel above that tonnage to be provided with at least two good boats.

FOR SHIPS NAVIGATED BY STEAM.

All sea-going Vessels navigated by *Steam* shall be required to be surveyed *twice in each Year*, when a character will be assigned to them according to the report of survey as regards the classification of the hull and materials of the vessel.

That with respect to the boilers and machinery, the Owners are required to produce to the Surveyors to this Society at the above-directed surveys a certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed; to be appended to the report of survey, and delivered to the Committee, who will thereupon insert in the Register Book the letters M. C., denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned for the machinery.

Hull:—The Surveyors to this Society are directed to examine and report the scantling of Timbers, Plank, and Fastenings, where built, and by whom, in the same manner as directed for sailing vessels.

Scantlings:—The scantlings are to be deemed sufficient for a steam-vessel, under 300 Tons Register, if equal to those required by the Scale prescribed in the Rules of this Society, for a sailing vessel of two-thirds of the *Registered* Tonnage of such steam vessel.

But for a steam vessel *above* 300 Tons Register, then the scantlings are to be equal to those required by the Scale for a sailing vessel of *Three fourths* of the *Registered* Tonnage of such steam vessel.

Floors:—Where the Vessel is not *filled in solid to the Floor-heads in the Engine Room*, an exception will be specially made against any reduction of the scantling of the *Floors*, which in such cases will not be permitted to be upon the reduced scale of two-thirds or three-fourths of the dimensions for the *scantlings* of sailing vessels as before stated; but the *Floors* will then be required to be equal to the dimensions set forth in the Rules for ships of the actual Registered Tonnage of the steam vessel.

The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the Engine and Boiler *Sleepers*, and the description of timber of which they are composed, and whether diagonally trussed with iron, and to what extent; the length, size, and fastenings of Shelf

Pieces and Paddle Beams; and whether the Vessel be constructed with Sponcings and how they are formed; and to give the general length and shifting of the Plank outside and inside.

Materials and Stores:—The Surveyors are to examine and report the number and description of the Masts, Sails, Anchors, Cables, Hawsers, Warps, and Boats, as directed to be done for sailing vessels; but the Anchors and Cables will not be required to exceed in number, weight, and length, those of a sailing vessel of Two-thirds of the Registered Tonnage of the steam vessel.

The Surveyors are t amining and reporting the condition of the Boats of all ves rying Passengers.

The Rules herein s times be altered by the presiding Committee, and especi nowledged improvements which may be made in naval archi aterials used in ship-building.

It is the earnest desire of the Committee to cultivate and maintain the most perfect good understanding with the Merchants, Ship-owners, and Underwriters of the different Ports of the United Kingdom, on whose support and co-operation they rely for the promotion of the objects of the Institution within their respective districts.

The Register which is now presented to the Mercantile Community, contains an authentic *List of all Ships registered in the United Kingdom of* 50 *tons measurement and upwards, as furnished to the Provisional Committee, under the permission and direction of the Lords of His Majesty's Treasury, by the Honourable the Commissioners of Customs;* but, in accordance with the Rules for Classification, *every ship is required to undergo a Survey by the Surveyors to this Society, prior to Registration.*
